

# FAMILY DISCIPLESHIP MANUAL PROJECT

A ministry of

## THE PERIODICAL

JANUARY 2025

### Bible and Discipleship manual rollout.

Mr. and Mrs. Gumbo live in a rural area called Shale. Our team managed to do ministry in this area. Our previous experiences have shown us a huge need not only for the Discipleship Manual but also for Bibles. This couple is such an example. They had never heard the Gospel shared with them with such clarity and simplicity. After they gave their lives to the Lord, they confessed that they never possessed a Bible in their home. Thank God they benefited from the few copies of the bibles we had left which is in their language. We are trusting the Lord to provide us not only with but with Bibles also. The Manual cost \$6 and one Bible cost \$8.

### THE STORY OF A CHANGED LIFE.

Maria is a single parent who lost her husband 5 years ago. She has been left with 4 children and she is having huge struggles to raise them. She has been a believer for over 10 years but confessed there is no spiritual progress in her life. When our team visited her, she was thrilled to see [people who had come to revive her. She rededicated her life to the Lord. She already has a bible so she was glad that she is going to glean from the manual her and her 4 children. She also promised to share the gospel with her children. She felt better equipped to do ministry to her children and even to other people in her circle. Its amazing how God is raising many people like her.

We are thrilled to be sending you this publication as a ministry. We also wish to let you know that through the intentions of this ministry, we have seen thousands of children and numerous families reach out and get empowered through the use of the discipleship manual. We have a huge discrepancy that we need to deal with as a matter of urgency and that is the availability of Bibles In the people's languages, we have found it special for the families to glean from the manual with a bible alongside them. We are kindly appealing to you to partner with us on printing the manuals and purchasing the Bibles.
